

Ethan David Lee

Software Engineer

email@email.com | City, State | linkedin.com/in/ethan-david-lee/ | github.com/user/

PERSONAL STATEMENT

Motivated software engineer with 6+ years of experience in data analysis, project management, and PR, now transitioning into software development. Proficient in Python, JavaScript, and full-stack development, with hands-on experience in web scraping, data analysis, and developing user-centered solutions. Bring strong analytical skills, problem-solving capabilities, and effective communication skills. Excited to leverage technical expertise to deliver impactful software solutions in an internship role.

EDUCATION

University of XYZ, City, StateSep 20XX–Dec 20XX

BS COMPUTER SCIENCE, GPA: 4.00/4.00

RELEVANT COURSEWORK: Data Structures, Algorithms, Software Engineering, Web Development, Computer Architecture and Assembly

WORK EXPERIENCE

Data and PR Specialist
Company Name, City, State (Hybrid)Apr 20XX–present

- Use Python (Pandas) to analyze survey results and public data to derive actionable insights, presenting findings to senior leadership and in reports for PR articles
- Enhance data collection with Python-based web scraping tools to aggregate and analyze over 1 million job postings, providing technical solutions for PR strategies
- Design quarterly surveys for UK and US audiences, leveraging research on workplace trends to create compelling data points
- Craft data-driven narratives for media outreach, achieving coverage across 100+ outlets, including Forbes, CNBC, Harvard Business Review, and The Times

Programs and Partnerships Associate
Company Name, City, State (Hybrid)Jan 20XX–Dec 20XX

- Led digital content strategy development using data analytics to drive a 60% increase in website traffic, helping to double festival attendance to 50,000, showcasing data management and analysis skills
- Spearheaded five annual arts and culture initiatives, including the Artist-in-Residence Program and US Mission Grant, demonstrating project management, leadership, and communication skills

Marketing Assistant
Company Name, City, State (Hybrid)Sep 20XX–Aug 20XX

- Helped develop a comprehensive advertising strategy for 18 residencies and ongoing events, leveraging analytics to optimize event outreach and engagement

PROJECTS

- Trip Management System (Full-stack MERN):** Built a web app that interfaced with an LLM to allow users to create travel itineraries and save them to a database where they could be edited, deleted, and downloaded in CSV and PDF formats
- Falcon-Hunter Chess (Python):** Built and tested the backend for a chess variant game with the Falcon and Hunter pieces
- Job Description Analyzer (Python):** Developed a Python program that scraped and analyzed job descriptions to identify the most common skills for specific roles, automating the data collection process

LANGUAGES & TECHNOLOGIES

- Languages: Python, JavaScript, HTML, CSS, C, C++
- Technologies: MongoDB, Git, React, Node.js, Flask, Pandas, WordPress
